

New Tomorrows for Today's Buildings: Existing Building Commissioning

April 23, 2015 | 1–4 pm EDT

Hosted by Ring & DuChateau

www.ashrae.org/webcast

Ring & DuChateau invites you and your colleagues to join us at our new office for this ASHRAE Live Webcast presentation on existing building commissioning and the benefits to the environment, occupants, and operation staff, and overall ownership costs.

After attending this webcast you will know:

- How to recognize the varied scopes of commissioning
- When to apply comprehensive versus focused commissioning
- The best practices in existing building commissioning specifications & contracting

“The Presenters will be distinguished between new building commissioning, existing building commissioning, and retro-commissioning,” said Nathan Hard, Chair of the CTTC Webcast Ad Hoc Committee. “Viewers will learn how to manage the commissioning process to minimize the impact on building functions and occupants, and how to integrate elements of existing building commissioning into the operation and maintenance staff’s daily activities. The focus will be on maximizing energy efficiency and ROI.”

A catered lunch with beverages will be supplied for the duration of the webinar.

Ring & DuChateau’s new office is located at:

**17400 W Capitol Drive,
Brookfield, WI 53045**

For parking and driving information please refer to the second page of this invitation.

**Please RSVP to Shana Jones by Monday, April 13, 2015 at
sjones@ringdu.com**
